BROADFORM COMBINED LIABILITY

Howdie's Broadform Combined Liability cover is a wide form of commercial liability insurance and is generally more comprehensive than a typical public liability policy.

This cover encompasses general and tenants, defective workmanship, products liability, employers liability, work away, top-up motor liability, top-up passenger liability, top-up property owners liability, contingent liability, food and drink extension, spread of fire and tool of trade extension.

Protect yourself, your employees and your business against third party claims.
